

# NOLAN'S RAIL PULLER

## Model RP-1F Rail Puller

Model **RP-1F** is fabricated and intended for handling 136-lb and 141-lb rail.

▲ *RP-1F shown with locking wedge in place*

RP-1F uses the convenient locking wedge (**Model #R1157**, pictured below), which is securely fastened to the puller, and holds rails for removal from rail trains and in accurate positioning for welding. It is designed for easy attachment and removal.

MODEL #	FITS RAIL	CLEVIS PIN DIAMETER	WEIGHT
<b>RP-1F</b>	100-141 lb (45-64 kg)	1-3/8" (34.93 mm)	46 lbs. (20.87 kg)
<b>R1157</b>	Description: Wedge w/chain, for RP-1, RP-1F rail pullers		10 lbs. (4.54 kg)
